

DMEX DEVELOPMENT OF EXPERIMENTAL METHODOLOGIES

DMEX – UMS 3360

Fields of application
Geosciences
Materials science

Research themes and know-how

High resolution non-destructive 3D imaging

Advanced image processing

Development of dedicated instruments and algorithms

Main equipment

Bruker Skyscan 1172 microtomograph

Xradia Versa 510 microtomograph

Computer cluster

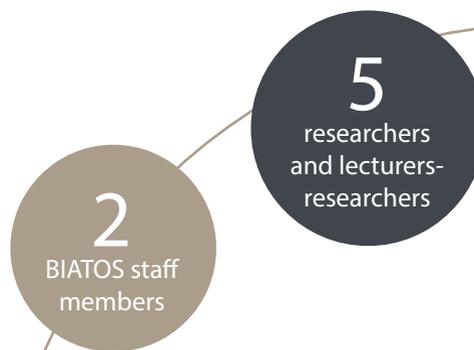

Partnership

Industrial partnership TOTAL

Spearheaded by

DMEX in figures
